

## Apple Mail Mac OS X Lion

1. With Apple Mail open click on **Mail** at the top left and then pull down and click on **Preferences**.

2. Next click on the "+" at the bottom left of this window.

3. Now fill out your **Full Name**, **E-mail Address**, and **Password** and click **Continue**.

**Add Account**

You'll be guided through the steps to set up an additional account.

To get started, provide the following information:

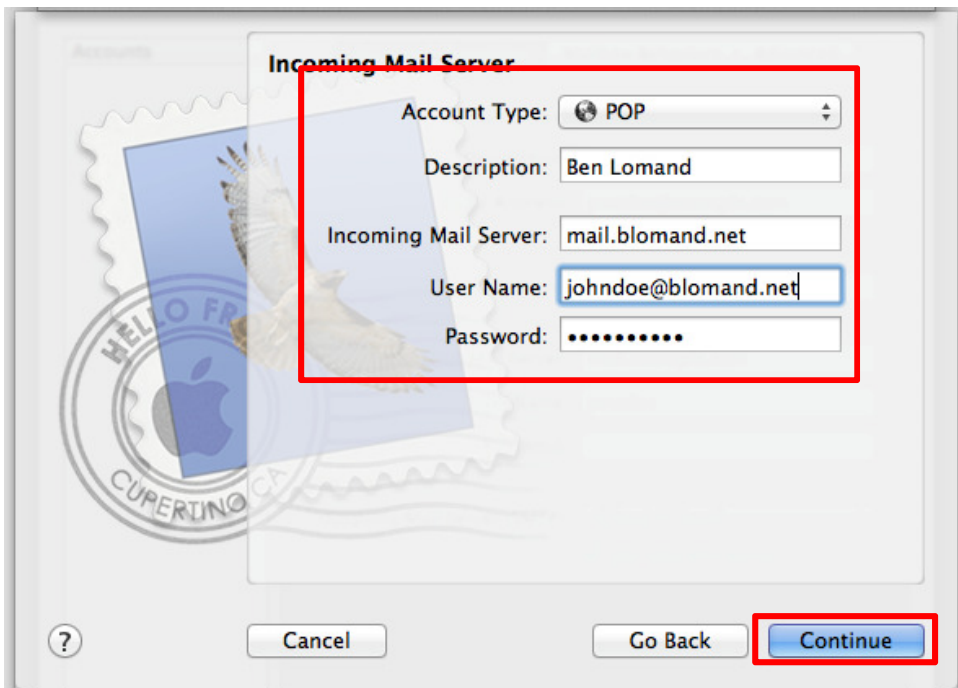

Full Name: John Doe

Email Address: johndoe@blomand.net

Password: [masked]

Cancel Go Back Continue

4. Make sure the Account Type is **POP** and your incoming mail server is **mail.blomand.net** and your User Name is your full **E-mail Address**. Then click **Continue**.

**Incoming Mail Server**

Account Type: POP

Description: Ben Lomand

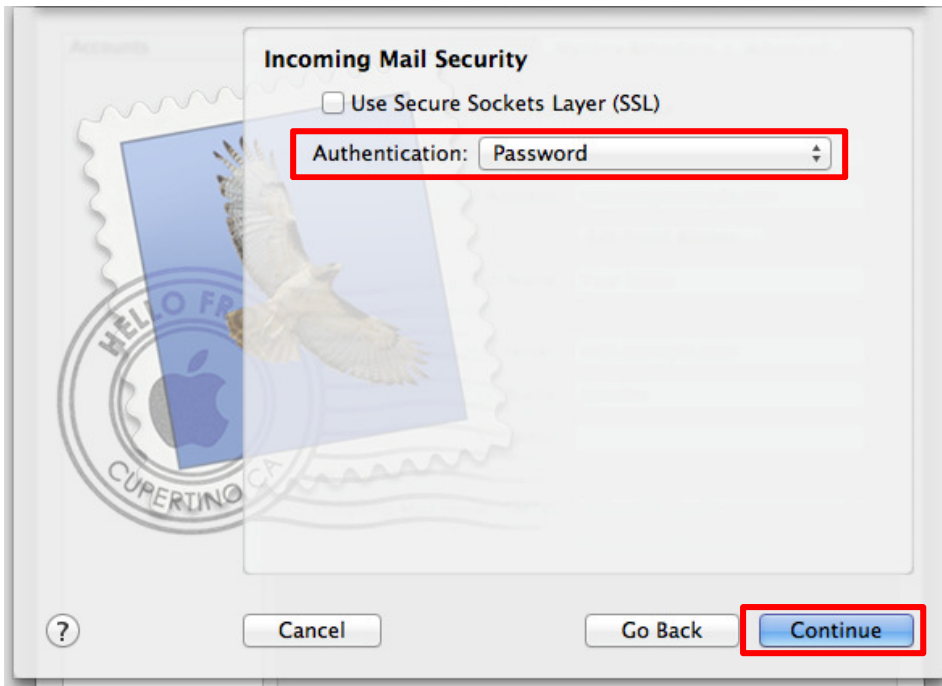

Incoming Mail Server: mail.blomand.net

User Name: johndoe@blomand.net

Password: [masked]

Cancel Go Back Continue

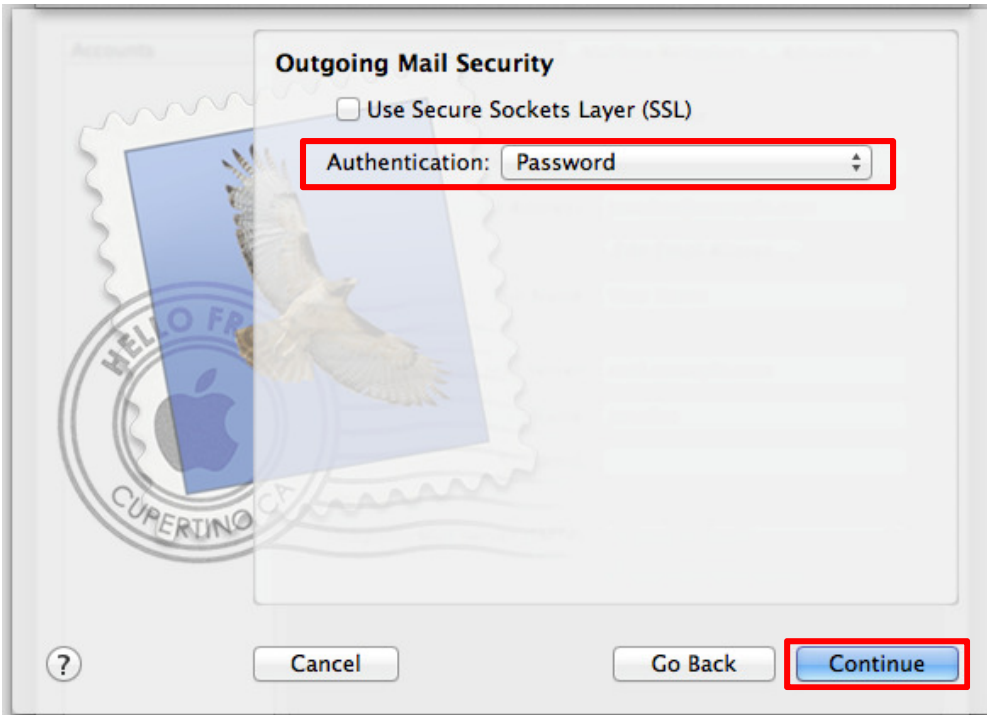

5. Your incoming Authentication needs to be set to **Password**. Then click **Continue**.

6. Your outgoing mail server is **smtp.blomand.net**. Put a checkmark in **Use Authentication** and type in your **E-mail Address** and **Password**. Click **Continue**.

7. Make sure the outgoing authentication is set to **Password**. Click **Continue**.

8. Your e-mail account is now setup. Click **Create** to start checking your mail.
